

The
KUKANG
RESCUE PROGRAM

The biggest threat to slow lorises is the illegal pet trade. Before slow lorises are sold, traders cut or pull out their teeth so that they don't bite their new owners. Because of this, many of them die of various infections and as many as 90% do not survive transportation.

By purchasing a slow loris, sharing videos with a slow loris and taking pictures with a slow loris as a tourist attraction you support this illegal trade!

SLOW LORISES ARE AN ENDANGERED SPECIES, THEY ARE PROTECTED UNDER THE NATIONAL AND INTERNATIONAL LAW, AND ALL TRAFFICKING OF SLOW LORISES IS ILLEGAL.

During the past 20 years, one third of their population has vanished from the wild. Together we can stop it before it is too late!
